V5R 2J8

(778)-751-0157 / suzydp@me.com

Overview

I am over 3 years experienced Web designer/Front-end developer focusing on branding, based on the experiences of fashion design & graphic design. Always fascinating about improving myself by hunting up for new design, framework, library and any other things.
Making good flow for users and any clients by logical expressions is my goal for design and development.

Key Skills

- Excellent **designing skills**, especially by using Adobe Photoshop and Illustrator, based on over 10 years of experience including personal projects for both **Windows and Mac**.
- Development on both **print and web** (mainly using HTML5 / CSS3 / Javascript, including skills for Wordpress).
- **Logical design and development** based on researched market trends and strategy.
- Native Japanese and **fluent English speaker**.
